MEMORANDUM FOR: C/NIC

VIA : NIO/GPF

SUBJECT : NSSD 1-82, Part III, Section C

1. Section C has been LDX'd in "absolutely final" form before NSC deliberation requesting inputs by 1400 today. Latest changes noted in Attachment 1 are:

- deletion of options verbiage in first paragraph of Summary.
- addition of the hi-lited paragraph on Page 4 regarding unlikelihood of either meeting our objectives in SWAsia or in limiting horizontal escalation of war.
- changes in peacetime objectives hi-lited in subparagraphs on Page 5 which recognize the difficulty in deterring Soviet aggression in SWAsia.
- *a substantiation*
~~an establishment~~ of the SWAsia Issue with more detailed description of options. [redacted]

2. Since the proposed changes do not appear to conflict with DCI guidance, I will not submit an input, unless directed otherwise.
